

CLAY MODELING

WITH SUNDAY OLANIYI

OBJECTIVES

OF THIS LESSON

OBJECTIVES

- Students will be able to describe what clay is and recognize clay made objects.
- Students will be able to identify a variety of clay modeling materials and tools.
- Students will be able differentiate between the three basic methods of modeling (pinching, coil, and slab).
- Students will be able to mold an object like a cup, pot, bowl, etc...

MATERIALS

FOR THIS LESSON

MATERIALS

- Scooper
- Spatula
- Pin
- Scraper
- Rolling pin
- Clay
- Water
- Sponge
- Ruler

LADI KWALI

STUDENTS WILL RECEIVE A BRIEF HISTORY ABOUT AN
AFRICAN NIGERIAN FAMOUS POTTER LADI KWALI

MAP OF NIGERIA

CLAY MODELING INSTRUCTIONS

- Introduction to clay modelling
- Review modelling materials and tools
- There are three basic methods of modelling: (pinch, coil and slab) to mold an object like cup, pot, bowl etc.

PINCHING INSTRUCTIONS

- This technique involves shaping the clay by pinching it between the thumb and fingers.
- Pinching is often used to create small, hollow forms like bowls, cups, and pots.
- It is an excellent technique for beginners to develop a feel for the clay and control over its shape.

COILING INSTRUCTIONS

- Coiling involves rolling out long, thin ropes of clay and then stacking them to create a form.
- The coils can be left visible for a textured effect, or they can be smoothed and blended together to create a seamless surface.
- This technique is suitable for building larger, more complex shapes, such as vases or sculptures.

SLAB BUILDING INSTRUCTIONS

- Slab building involves rolling out flat, even sheets of clay and then cutting and assembling them into the desired shape.
- Slabs can be used to create boxes, cylinders, or more complex structures.
- This technique is ideal for creating geometric forms and requires careful attention to detail to ensure the edges and corners are neat and aligned.

PASS OR PLAY!

NAME AN OBJECT MADE WITH CLAY

VOCABULARY

VOCABULARY

- Clay
- Pinch
- Coil
- Slab
- Additive

- Subtractive
- Score
- Slip
- Texture
- Shape
